**Temporary Housing Requirements**  
**June 7, 2011**

The fee for temporary connections is \$75.00 which includes one inspection.  
If this fee is not covered by your Insurance, please notify the Board of Health.

The connection of the sewerage line from temporary housing units to the existing septic tank is to be installed below grade.

The pipe is to enter the septic tank through a tank knock-out. It is not be run into a tank cover.

Temporary housing units should not be footed/installed directly over the existing septic tank.

After connection of the water line to the temporary housing unit, it is required that the existing private well be tested to ensure safe drinking water.

Please contact James Robida, Brimfield Board of Health Agent, with any questions at (774) 230-4266.

Thank you
